ABOUT ME

Hi, I am a person who has a strong passion for programming.
I have experience in creating a SPA with React/Redux/TypeScript.
Now I am improving my skills in this direction and expanding them with the help of new technologies. I'm also studying Node.js, specifically framework Express because my next goal is to become Full-Stack developer. In my free time, I try to improve my English or solve problems on Codewars.
Open to your suggestions
